

EURO AMBULANCE EN1789 PREPPACK

EURO AMBULANCE EN1789 PrepPack is an EU certified Type B Preparation Pack designed for in-market ambulance converter completion. The PrepPack includes an ABS interior, HVAC system, lighting, attendant seats and medical device fixing points.

EN1789 PrepPack provides ambulance converters with a high-quality EN1789 compliant interior that's ready for completion to your or your customers' preferred specifications.

Tested to meet European Standards for Type B Life Support Ambulances, EN1789 PrepPack vehicles are produced at RMA Group's Kocaeli, Türkiye, Modification Centre, located immediately adjacent to the Ford Otosan Transit production facility.

EURO AMBULANCE EN1789 PREPPACK offers extensive benefits to any in-market converter.

A reduction in design, development, testing and tooling costs

A speed-up in time to market

Increased conversion throughput

The ability to maintain final conversion flexibility
